## SAFETY IS A PRIORITY

At Westco Educational Products, product safety is very important to us. We strive to ensure that we are compliant with all necessary U.S. safety regulations and test our products accordingly. Ask us about safety testing documents or clarification on any of our products. Some products carried in this catalog are designed to be used by adults or under adult supervision. These items are specifically noted throughout the catalog.

### PROP 65 ⚠

In partnership with our vendors, Westco performs safety testing on all of the products we sell. At this time, most of our products are safety compliant for hazardous chemicals and therefore do not carry the California Prop 65 warning. If there are items that carry the warning, this badge will accompany the listing in our catalog and on our website. Please see our website, westcoeducation.com for further information or changes that may have occurred after this catalog was published.

**Many of our wood products are made of rubber wood. If you have a latex allergy please check with your doctor before using.**

## The Westco Story

Founded in 2011, Westco Educational Products is an educational musical instrument wholesale company, with an emphasis on the school specialty market. Our roots run deep in the musical instrument industry spanning over 75 years of experience. Through our experience, we identified a need for better quality musical products suitable for the youngest players.

Westco sets new higher standards for quality, safety, value, and musicality. We partner with manufacturers who are equally invested in our vision, stressing family values, integrity, and strong business practices. We have visited the factories of all of our global partners to evaluate how our products are made, and we continue to strengthen those relationships daily.

In addition to our strengths at building lasting business partnerships, our staff members also possess a range of talent as musicians, educators, and parents to provide expert feedback on3 every instrument we choose to develop or add to our line.

Thanks to all of our customer partners, Westco is a growing and successful company dedicated to raising the industry benchmarks and providing quality musical experiences for every user of our products.

# ABOUT WESTCO

## Innovative Products & Partnerships

- At Westco, we strive for new product innovations to keep our catalog appropriate for today's market. We look for and develop products that meet our high expectations of quality, safety, and musicality.
- As a customer, your input is essential in assuring the success of product sell-through and customer satisfaction. Our goal is to create a collection that meets your goals of product selection, price point, and margin potential.
- Cross-curricular experiences create a higher level of engagement, and we believe our products can enhance a wide variety of learning situations.
- Working with the end user in mind, we will partner with you to select products specific to your market needs and customers.
- Working together to realize shared goals — together we can make a difference.

### Customize a Kit

All products in our catalog can be purchased individually, as part of pre-built kits, or a custom kit can be built specifically for you. Contact a Westco sales representative for details.

## INSTRUCTIONAL VIDEOS

Available for our specialty instrument kits, our exclusive instructional video series is designed to bring the joy of making music to the classroom with Paul Corbière and his music class! Westco's unique instructional videos are designed to teach proper technique, rhythm, and participation to students of all ages. Combine our one-of-a-kind videos with our carefully selected instruments, and our music kits can help accelerate learning and assist in greater retention of materials learned. Each video features instrument demos and class ensembles that will engage and delight both students and adults. Links to the videos will be included with each kit. ## Rainstick
3y+

This traditional Chilean instrument is created from a dried cactus. Thorns pressed into the hollow shaft create the sound of rain as pebbles cascade over the them. A fun and simple way to add new sounds to the classroom! Note: Rainsticks should not be exposed to high temperatures. This may cause the wood to dehydrate and shrink thus exposing the sharp tips of the thorns inside the rainstick.

# MAP POLICY

We invest a lot of time and resources to deliver high-value products along with an extraordinary customer experience. We recognize that our dealers share this dedication. To support these efforts, Westco seeks to establish policies that allow dealers to earn the profits necessary to maintain a high level of excellence. We have unilaterally adopted a Minimum Advertised Price (MAP) policy to protect the investment of our dealers and the brand image of our brands Sound Choice and Sounds Like Fun!

The MAP price is the lowest price our Sound Choice and Sounds Like Fun! products can be advertised for sale. Dealers are free to sell Sound Choice and Sounds Like Fun! products at any price they choose, and this policy does not obligate or restrict the actual selling prices as long as they are above the designated MAP price. MAP does not apply to used or discontinued products, and dealers are required to identify the product as used or discontinued in their advertising.

Placing an order with Westco for Sound Choice and/or Sounds Like Fun! products constitutes acceptance of our MAP policy and binds the dealer to the MAP policy guidelines detailed above. Dealers who violate our policy risk the termination of the Sound Choice and/or Sounds Like Fun! dealership.

We also publish MAP pricing for REMO in order to assist our customers in adherence.
